

Briarfield Academy (BEN#81648) is requesting a waiver in filing the 471 for 2018-19. It has recently come to our attention that this form was not filed. Responsibility for filing has been passed to several people who were not familiar with the rules and forms of E-rate. Also our service provider has been bought out twice in the last 3 years. Our contract with this provider has been on going for several years and is binding until June 2019. We have been paying full amount for our internet service for this school year. Your help in this matter would be greatly appreciated, as it has been a financial hardship on our school.
